SHADOWS: For this topic, we're looking for photographs where the main story is told by one or more shadows. A shadow is a dark area or shape that is produced when an object blocks the light from reaching a surface. The actual object casting the shadow may or not be present in the image.

OPPOSITES: This is more of an open topic. Any subject is acceptable, as long as you have some contrasting elements (e.g., small/big; dark/light; young/old; modern/old-fashioned; sweet/salty). You may have more than two opposing ideas/things in your photos.

TOPICS ARE ALSO AVAILABLE ON THE CLUB WEBSITE

DEADLINE: JAN 1, 2024
